

FASTOL AUTOMATIC TRANSMISSION FLUID

Description:

FASTOL ATF T-IV is formulated with high quality base oils and advanced additive technology to provide outstanding oxidation resistance, friction durability, wear protection and shear stability. It is designed to provide longer service life of a type T-IV ATF and offers exceptional anti shudder and smooth shift performance. **FASTOL ATF T-IV** is suitable for automatic transmissions and other applications when these fluids are specified.

Application:

FASTOL ATF T-IV can be used in passenger Car automatic transmission and amp; heavy duty automatic transmissions, hydraulic systems, and power steering systems where T-IV type fluids are specified.

Benefits:

- ✓ Extended fluid life
- ✓ Improve oxidation and thermal stability
- ✓ Optimized frictional properties that provide smooth gear shifting during low temperature operation and help to prevent transmission vibration
- ✓ Outstanding resistance against sludge and deposit formation
- ✓ Improved anti wear protection which contributes to extended transmission life
- ✓ Robust low temperature performance

TYPICAL DATA		
Product	FASTOL ATF	
Rating	T-IV	
Physical Characteristics	Test Method	Typical Value
Rating		T-IV
Kinematic Viscosity @ 100 °C (cst)	ASTM D-445	7.2
Brookfield viscosity @-40°C	ASTM D-2983	12000
Flash Point (COC) °C	ASTM D-92	210
Pour Point °C	ASTM D-97	-33
